# **SITS:Vision**

Redefining Student Management. Delivering Student Experience.

**EMPOWERING THE WORLD OF EDUCATION**

**Students are at the heart of what we do. Our solutions are designed to deliver the best experience for your students, throughout their journey.**

From student recruitment and admissions, through to student support and retention - we are by your side to improve the way information is collected, collated, analysed and shared; empowering staff and students across your university to achieve their vision.

*“We’ve used Tribal software to improve the experience for our applicants. The University absolutely pushes experience far more than it does the nuts and bolts of administration, which really should be as invisible, but as robust as possible”*

**DANIEL FARRELL,  
THE UNIVERSITY OF ST ANDREWS**

## **CLOUD-READY**

**SITS: Vision is cloud-ready, meaning you can switch to the cloud version whenever it suits your own organisation’s infrastructure strategy. So, when it’s right for you, you can take advantage of our enterprise-grade hosting and infrastructure platform, supported by Rackspace, the world’s number one managed cloud company.**

# **How we support your student’s journey and enhance the student experience:**

## **Student Recruitment**

Make recruiting and attracting the best students a breeze with our marketing, admissions and support software.

## **Student Retention**

Increase dedication and retain your students by utilising a suite of tools that improves student support, predicts likely student outcomes and enhances student engagement.

## **Student Experience**

Delight students with a seamless student experience throughout their journey with your University.

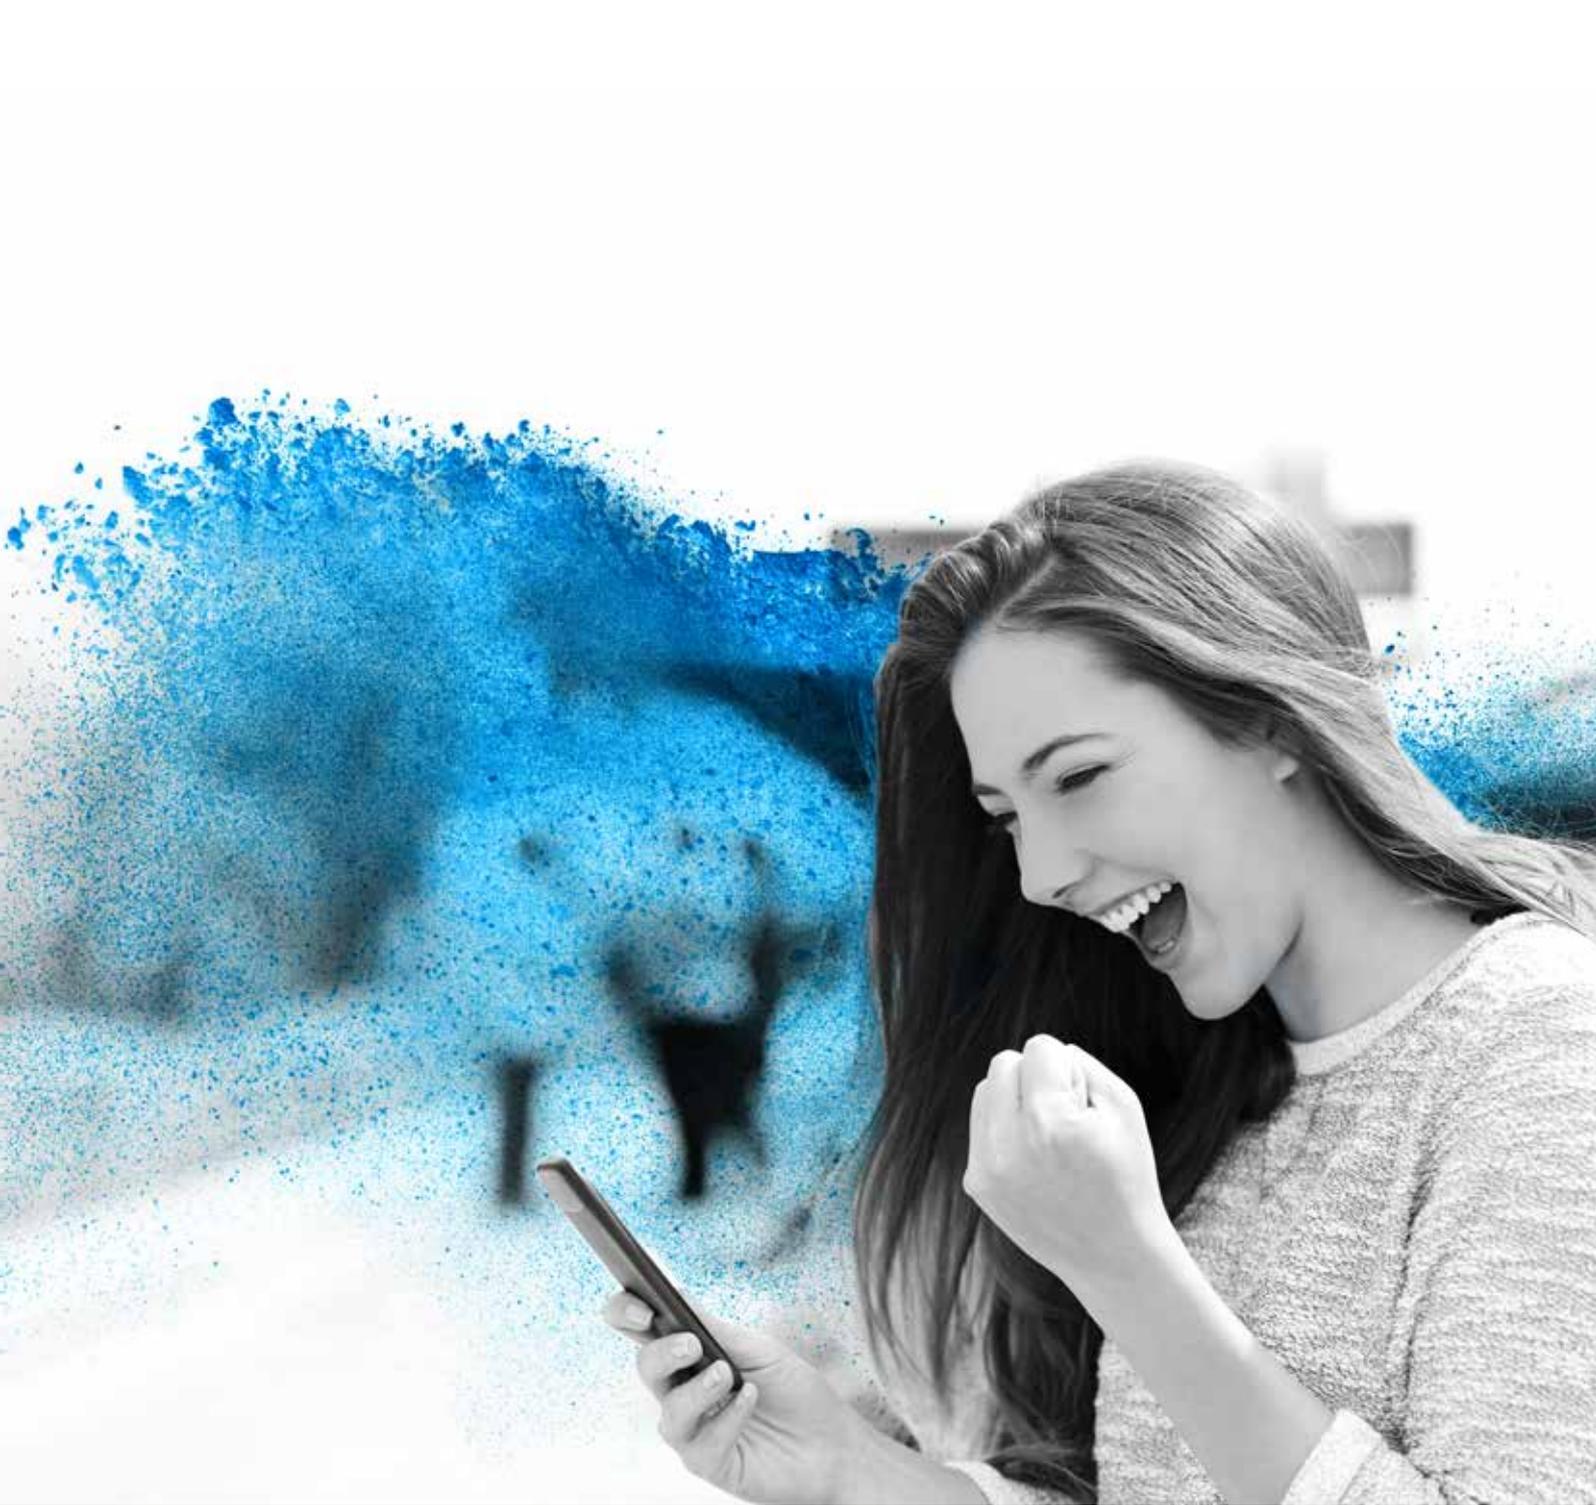

We have your students front of mind, and you’ll see this reflected within our software; designed to improve services, provide better access to information, increase accountability, automate processes and communications and ultimately provide the basis for a better all-round educational experience.

## **Student Finance**

Manage student debt, handle funding applications in batch, and automatically assess student eligibility.

## **Student Outcomes**

Effectively match students with employer vacancies; maximising employability options and improving their chances of finding the best graduate level jobs and career development opportunities.

# About SITS:Vision

Modular by design, scalable, and platform and database independent; use those modules that are required to meet your business needs today, with the option to cater for your expanding requirements tomorrow.

## Complement your Student Management System with **Tribal UniversityEdge**

### Student View

**Put your campus in the palm of their hand.**

Student View is aligned to a student's lifestyle and gives them a personalised, experience. Available anytime, anywhere via a mobile app, students can see their day at a glance, quickly and easily; communicate with other students and staff; and have all the information they need at their fingertips.

### Student Engage

**Connect. Communicate. Collaborate.**

Student Engage is a private social network that helps you connect, communicate and collaborate with your students. Connect and communicate with students earlier in the recruitment cycle, and keep them engaged through the education lifecycle by collaboration with staff and peers, all in real time.

### Student Support

**Better for students, easier for you; all in one place.**

Student Support ensures students and staff are supported through the complete university lifecycle to reduce drop-outs, ensure best possible performance and maximise their success.

### Student Insight

**Predict the future based on the past.**

Student Insight helps you understand the student behind the student information data so that you can make a positive difference and provide them with all the help necessary to ensure success on their student journey.

## ACCESS OUR GROWING COMMUNITY

Join a community of over 140 Universities across the globe who are using our software solutions to help underpin student success.

*"Working with Tribal and the functionality available in their SMS enables us to turn our attention fully to driving the quality of the student experience."*
